

A family of four is hiking on a rocky trail next to a lake. The mother is wearing a grey jacket and a red backpack, the father is wearing an orange jacket, and the two children are wearing colorful jackets and hats. They are all smiling and looking towards the camera. The background shows a lush green forest and a mountain range under a cloudy sky.

Reward for customer loyalty – SWICA rate based on age at time of joining

With most health insurers, the premiums for hospitalisation cover rise noticeably with age every five years. This often leads to a high financial burden in old age, precisely when you are dependent on optimum insurance cover. With the rate based on the age when you joined we count your period of cover to date when calculating the rate for your premium and thus reward you for your loyalty.

- SWICA rate at age of joining remains unchanged for life.
- With competitors, premiums rise with age.

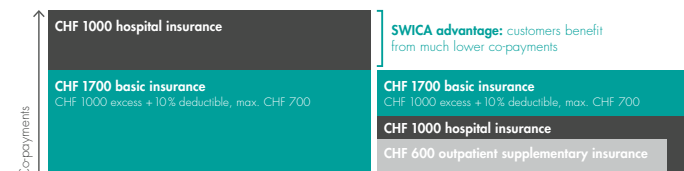

¹ SWICA advantage: Transparent and favourable co-payments

SWICA and PROVITA are the only health insurers that apply co-payments from basic insurance to those from SWICA supplementary insurance, which means your maximum annual co-payments will be much lower when compared to other health insurers (this does not apply to HOSPITA FLEX variants).

Example

Max. co-payment with competitors:
CHF 2700/year

Max. co-payment with SWICA:
CHF 1700/year
