COMPLEMENTARY MEDICINE

COMPLEMENTARY THERAPY METHODS.

BECAUSE HEALTH
IS EVERYTHING

SWICA

OVERVIEW OF COMPLEMENTARY MEDICAL THERAPY METHODS.

SWICA believes in combining conventional medicine and complementary medicine. Anything that benefits your health is a good thing. That's why SWICA supports complementary therapy methods and puts them on an equal footing with conventional medicine.

BENEFITS

- › SWICA covers the costs of the complementary methods listed below, provided that a SWICA-recognised therapist administers them for the purpose of treating an illness or the consequences of an accident.
- › SWICA reimburses the services of recognised therapists up to a maximum of 80 francs per hour under its COMPLETA TOP plan or 120 francs per hour under COMPLETA FORTE.
- › The OPTIMA plan covers any costs that exceed this amount. Benefits can also be received in other countries provided the therapists are trained to an equivalent standard in accordance with SWICA's quality standards.
- › The INFORTUNA (worldwide insurance for private patients) plan covers insured costs arising from accidents or the consequences thereof that are excluded from mandatory health (basic insurance), accident (UVG), military or disability insurance.

CO-PAYMENTS

Under the General Insurance Conditions (GIC) and the Supplementary Conditions (SC) for COMPLETA TOP and COMPLETA FORTE, SWICA applies a 10% deductible to all insured persons (up to a maximum of 700 francs for adults, 350 francs for children) for therapies administered under a complementary plan. Adults can also choose between no excess or an excess of 600 francs. Children below the age of 18 are exempt from any excess. Under an OPTIMA plan, all insured persons must pay the annual excess for mandatory (basic) healthcare insurance plus a 10% deductible (up to a maximum of 700 francs for adults and 350 francs for children).

Exclusive SWICA advantage: Transparent and favourable co-payments. SWICA is the only health insurer that applies co-payments from basic insurance to those of its supplementary insurance, which means the annual co-payments will be much lower when compared to other health insurers.

SWICA THERAPIST DIRECTORY WITH ONLINE FUNCTION FOR APPOINTMENTS

SWICA keeps a directory of recognised therapists. This directory is continuously updated.

Customers can view it or request extracts from it. Appointments can also be booked directly online via the SWICA therapist directory. You can find all SWICA-recognised therapists at: [swica.ch/therapy](https://www.swica.ch/therapy).
