

HEALTH LEGAL PROTECTION

SUPPORT IN LEGAL MATTERS.

BECAUSE HEALTH
IS EVERYTHING

Health – and the right to protection.

Those affected by medical malpractice must ask themselves if retaining a lawyer or going to court is worth the trouble, because the high costs and uncertainty of success often get in the way of asserting one's rights. By taking out health legal protection insurance you can put such worries aside because it gives you the certainty and financial support you need. Health legal protection insurance offers comprehensive support in connection with legal problems, questions and disputes relating to health impairments.

In particular it covers:

- Legal cases involving the parties that caused an accident
- Disagreements with medical service providers
- Support in connection with claims by an opposing liability insurer
- Legal cases involving other insurance companies

You cannot take out health legal protection insurance unless you have COMPLETA TOP and/or HOSPITA supplementary insurance.

Your cover

Health legal protection cover includes the following in connection with legal cases arising from impaired health:

- Protection of your legal interests up to a maximum of 300 000 francs per case in Europe (150 000 francs per case outside Europe)
- Cover of the cost of mandated lawyers
- Cover of the cost of opinions obtained by mandate
- Cover of the procedural costs and court fees the insured person must pay
- Cover of the amount in compensation owed to the counterparty

How legal protection insurance works

- To report your legal case, call SWICA Client Services on 0800 80 90 80 (24 hours a day).
- A legal adviser will contact you in person to discuss the next steps.
