

GUIDE TO LINKING YOUR TRACKER.

By connecting your tracker with the BENEVITA app, you'll be able to collect points automatically. Track your steps or active minutes using the Apple Health or Google Fit interface. Make sure that you've activated the interface for BENEVITA beforehand.

HOW TO ACTIVATE TRACKING IN THE BENEVITA APP

STEP 1

Open the BENEVITA app, go to the "Account" section and scroll down to the very bottom. Tap on "Connect and benefit" to initiate the link with your tracker.

STEP 2

Link your device by tapping "Connect tracker".

STEP 3

Select the interface you'd like to use and then tap "Connect tracker" again. Once you tap "Now connect", you'll be able to track your active minutes, steps or both.

If you haven't yet provided BENEVITA with access, you'll need to change this in your settings:

How do I activate Apple Health with BENEVITA?

1. Select "Settings"
2. Scroll until you see the Apple Health app
3. Select "Data access & devices"
4. Select "BENEVITA app"
5. Activate the "Steps" button
6. Start the connection in the BENEVITA app

How do I activate Google Fit with BENEVITA?

1. Select "Ok" to allow access to your steps
2. You'll be asked if SWICA BENEVITA can access your steps
3. Scroll down to the bottom and select "Allow"
4. Start the connection in the BENEVITA app

STEP 4

You're now connected and ready to go. You'll immediately begin collecting points by tracking your active minutes and/or steps.
